Portfolio: bayanqat.github.io

PROFESSIONAL SUMMARY

Flutter developer and UI/UX designer who takes apps from Figma design to Flutter build. Designed the full mobile and web UI of Lussito, a live e-commerce app, and built its API integration; single-handedly designed and developed a production alumni social network. Ships bilingual Arabic/English (RTL) apps to the App Store and Google Play using Clean Architecture, BLoC and GetX.

TECHNICAL SKILLS

- **UI/UX Design (Figma):** Figma, mobile app UI design, user flows, e-commerce and checkout flows, responsive web layouts (desktop and mobile), Arabic/English RTL interface design, design-to-development handoff
- **Development:** Dart, Flutter, Flutter Web
- **Architecture & State:** Clean Architecture, BLoC/Cubit, GetX, Provider, get_it, go_router, deep linking
- **Networking & Data:** REST APIs (Dio, http), WebSockets, freezed/json_serializable, SharedPreferences, get_storage, sqflite
- **Integrations:** Firebase (Messaging, Remote Config), push notifications, MPGS card payments, Google Maps & geolocation, QR generation & scanning
- **Localization & Delivery:** Arabic/English with RTL, testing, Git, Postman, Swagger, App Store & Play Store releases

PROFESSIONAL EXPERIENCE

Dot Media / Dot Tech, Amman, Jordan

Junior Mobile App Developer — Jan 2026 – Jul 2026

- Designed the full mobile and web UI of **Lussito**, an abaya e-commerce app, in Figma. In Flutter (BLoC), built about half of the screens and the API integration: MPGS card payments with saved cards, cash on delivery, OTP auth, wishlist, coupons, body measurements, and product search.
- Designed **Bishop School Alumni Club**, an alumni social network, in Figma, including the redesigned profile page, and single-handedly handled the entire development and all UI changes: post feed with polls, real-time chat with read receipts, event QR tickets, voucher redemption, membership payments, and admin tools.
- Developed the lease contract flows for **Musaddaq**, a lease contract certification platform: contract creation, payment dues, terminated contracts and search, certified certificates, delegation, and Arabic-first localization across 40+ screens.
- Built the **Musaddaq** responsive web version (desktop and mobile) from the same Flutter codebase in one week.
- Added push notifications, order filters and pull-to-refresh to **Jet App**, a duty-free shopping app, and fixed UI overflow bugs.
- Updated the UI of **Daleel AlHurra**, a car marketplace directory, and worked on **Masrafy** (personal finance) and **dotGate** (workforce and attendance).
- Live on the App Store and Google Play:
  - **Lussito** [iOS, Android]
  - **Musaddaq** [iOS, Android]
  - **Daleel AlHurra** [iOS, Android]
  - **Bishop School Alumni Club** [iOS, Android]

Mobile App Developer Trainee — Nov 2025 – Dec 2025

- Built **Musaddaq** UI screens and connected them to the REST API, then took on contract creation.

Coderz Company, Amman, Jordan

Mobile App Developer Intern — Jul 2025 – Sep 2025

- Built live order tracking with Google Maps and real-time location, plus ordering and delivery flows with BLoC and Clean Architecture, for an on-demand food delivery app.

PERSONAL & ACADEMIC PROJECTS

- **Blood Bank Management System** | Flutter (mobile & desktop): Graduation project with multilingual support and location-based donor search.
- **Admin Panel Web App** | Flutter Web: Updated an administrative dashboard for orders, users, and analytics.

EDUCATION

B.Sc. Software Engineering, Philadelphia University, Amman — Feb 2025

GPA: 86.7 / 100 (Excellent)

TRAINING & CERTIFICATIONS

- Full Stack Mobile App Development, Talal Abu-Ghazaleh Organization, 2025
